

Are you interested in accounting but could never sit auditing numbers at a desk all day long? If so, the Master of Business Administration with an Accounting emphasis (MBA/ACC) is the degree for you.

You can look forward to improving your managerial skills while being equipped with the necessary financial training to run any aspect of a company's finances. Curriculum will deal with the most relevant accounting techniques, accounting theory, costing techniques, and full training in preparing corporate taxes. Along with these courses students also will be given opportunities to further their managing skills through strategic planning and human resource courses. This degree offers a great blend of accounting course work and managerial training to prepare students for full time jobs in managing a company's human and financial resources. If you want to further your career in the financial side of business, this is the degree for you. This major will prepare you for: Quality managers who have a firm grasp of corporate financing are becoming very rare in today's business world. With a MBA/ACC you can expect to be pursued by numerous companies who desire accountants who know how to manage people, and managers who know how to handle finances. This degree also allows for you to work in a wide variety of companies, as your skills are needed in most corporations today. Students graduating with an MBA/ACC are often managing the accounting department at their corporation or even working themselves up to C.F.O. This degree offers endless possibilities in the job marketplace.
